Interest Calculation Methodology for Savings Account in JOD
Monthly interest is calculated based on the lowest balance. Interest paid semiannually.
Interest is calculated using this formula:
(Monthly Minimum Balance * Interest Rate * Number of Days) \} 3 6 5 Days

Interest calculation methodology for merchants current accounts (P.O.S):Yearly interest is calculated using this formula on daily basis and added to the account by end of month.
Interest is calculated using this formula:
(daily account balance x Interest Rate x Number of days)/365 days
